## RESIDENTIAL VENTILATION

**NEW**

*Vortice main company's philosophy is the concept that "air is our life". Our mission is always to provide effective solutions for improved air quality using the latest technology to develop and manufacture effective products worldwide.*

*Our current Vortice Headquarters have been located in Tribiano (Milan) since 1972.*

Vortice has achieved European market leadership by dedicating their efforts to the production of products for ventilation, climate control, heating, extraction, purification and the treatment of air, for domestic, commercial and industrial applications. Since 1954 Vortice has been synonymous with quality and excellence and continues to make significant improvements by investing in continuous research to improve the efficiency and quality of its products.

## VORTICE IN THE WORLD

FRANCE

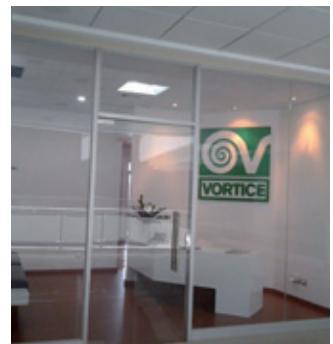

ENGLAND

CHINA

SOUTH AMERICA

Founded in 1974, Vortice France is located at Crétail about 10 Km from Paris.

Founded in 1977, Vortice Limited is located at Burton on Trent in the East Midlands.

Founded in 2012, Vortice Ventilation System is located about 200 Km from Shanghai.

Founded in 2012, Vortice Latam in San José Costarica.

# LEGEND

## SILENT RUNNING AND CERTIFIED, GUARANTEED PERFORMANCE

IMQ PERFORMANCE is an independent quality mark which certifies, according to international standards, performances (air flow and pressure) and noise levels of the product.

## SAFE

Safety, power rating, enclosure protection rating (IP44 to EN 60529) and electrical insulation are certified by IMQ (Quality Mark Institute), the Italian national certifying agency. The IMQ mark certifies that the product is manufactured in compliance with the provisions of relevant established safety standards and directives: (EN 60335-1, EN 60335-2-80 and EN 62333) Low Voltage Directive (LVD) and Electromagnetic Compatibility Directive (EMC). IMQ also guarantees regular, constant monitoring of production quality.

## ENERGY SAVING

ES label means that the appliance is fitted with EC Brushless motor and provides high energy savings, thanks to a wide range of speed regulation options and very low consumption levels.

## ERP COMPLIANT

The ErP compliant logo indicates that the appliance is ecocompatible and adheres to the ErP directive 2009/125/CE.

## CE MARKING

**Residential Ventilation products comply with the following European Directives:**

2006/95/EC Low Voltage Directive (LVD)  
2004/108/EC Electromagnetic Compatibility Directive (EMC)

According to the following state-of-the-art Standards:

### Safety

EN 60335-1, EN 60335-2-80, EN 60335-2-40, EN 622233

### Electromagnetic Compatibility

EN 55014-1; EN 55014-2; EN 61000-3-2; EN 61000-3-3

**LONG LIFE** 30.000 h

## LONG LIFE 30.000 H

The Long Life 30,000 h label certifies that the appliance is guaranteed to continuously run at max operating temperature for 30,000 hours without mechanical failure thanks to its motor, equipped with ball bearings.

**STANDARD**

## STANDARD

All models are manufactured with shielded poles and have bronze bearings for a long life

**AUTOMATIC**

## AUTOMATIC

The integral shutters positioned behind the front grille automatically open and close slowly when the unit is operated. The shutters are made from shockproof, anti-UV-treated, plastic.

**TIMER**

## TIMER

The timer comes on when the light is switched on. When the light is turned off, the unit continues to operate for 3 to 20 minutes, depending on the timer setting.

**PIR** Passive Infrared

## PIR

The unit turns on a few seconds after the person has entered the room (sensor is located in an inclined position to increase sensitivity), and continues to operate during the person's presence. When the person leaves the room, the unit will continue to run from between 3 to 20 minutes depending on the timer setting.

**T-HCS** Humidity Control System - Timer

## T-HCS

The appliance features a relative humidity sensor that is factory set at 60%. When relative humidity exceeds that level, the appliance automatically starts up. This threshold setting can however be modified by the installer to 4 levels: 60%, 70%, 80%, and 90%. The unit turns off when the RH drops back to 60% and when the light is switched off, the unit continues to run between 3 to 20 minutes depending on the timer setting.

**12 V** Power Supply Unit

## 12 V

A power supply unit is needed wherever the use of low-voltage equipment is required. The two available low-voltage fans - one with and one without automatic shutter - can be used in combination with any of the power supply units.

**PULLCORD**

## PULLCORD

The unit is switched on by pulling the insulated pull cord.

## RESIDENTIAL VENTILATION

## PUNTO RANGE

Wall/window axial fans

LONG LIFE 30.000 h

### PRODUCT SPECIFICATIONS

*For intermittent or continuous ventilation of bathrooms, toilets, kitchens or utility rooms in domestic or commercial properties.*

- **53 models:** from Ø 100 to 150 available with or without the option of automatic shutters, timer, pull cord, humidistat, electronic microprocessor and Passive infrared.
- Motor with shielded poles, either with bronze or ball bearings, and with thermal cut-out.
- Motor support and grille made of anti-UV ABS.
- High airflow rate, low operating noise level and low power consumption due to the wing profile blades and motor support.
- The standard models can be speed regulated.
- Protection rating: IPX4.
- Insulation class: II □ .

#### Punto 12V.

- **8 models:** available with or without automatic shutters; In the automatic version the shutters positioned behind the front grille automatically open and close slowly when the unit is operated.
- The shutters are made from shockproof, anti-UV-treated plastic.
- 12V motor with shielded poles, bronze bearings and thermal cut-out.
- Insulation: Selv Cl.III.

#### Punto PIR

- **12 models:** The unit turns on a few seconds after the person has entered the room (sensor is located in an inclined position to increase sensitivity), and continues to operate during the person's presence. When the person leaves the room, the unit will continue to run from between 3 to 20 minutes depending on the timer setting.

#### Punto T-HCS.

- **3 models:** adjustable RH threshold at 60%, 70%, 80%, 90% by mean of a slide switch during installation.
- Smart working mode: the product automatically switches on when the indoor relative humidity level exceeds the pre-set value. A timer automatically switches off the product when the relative humidity decreases under the pre-set limit.

## PUNTO FILO RANGE

Wall axial fans LONG LIFE 30.000 h

### PRODUCT SPECIFICATIONS

*For intermittent or continuous ventilation of bathrooms, toilets, kitchens or utility rooms in domestic or commercial properties.*

- **21 models:** from 90 to 150 diameters, standard, timer, long life versions.
- Integral backdraught shutter: already installed on the appliance, it prevents unwanted air from getting back in when the appliance is switched off.
- Very silent.
- Quick and easy installation.
- Eco-Friendly: it guarantees a low environmental impact.
- Only 17 mm thickness.
- **Punto Filo T-HCS:** 3 models.  
Adjustable Relative Humidity threshold at 60%, 70%, 80%, 90% by mean of a slide switch during installation.
- Protection rating: IPX4.
- Insulation class: II

Wall axial fans

### PRODUCT SPECIFICATIONS

*For intermittent or continuous ventilation of bathrooms, toilets, kitchens or utility rooms in domestic or commercial properties.*

- **6 models:** from 90 to 120 diameters, with or without timer.
- Body made of ABS plastic anti-UV.
- Integral backdraught shutter.
- Timer models adjustable between 3 and 20 minutes.
- Standard models can be speed regulated.
- Easy to clean and to maintain.
- Ceiling installation and wall installation.
- Protection rating: IPX4.
- Insulation class: II □ .

In-line axial fans LONG LIFE 30.000 h

### PRODUCT SPECIFICATIONS

*Suitable for installation in walls, ceilings/false ceilings, lofts, internal walls.*

- **10 models:** from Ø 90 to 150 available with or without timer.
- Can be used as temperature blenders in adjacent rooms.
- Motor with shielded poles and ball bearings (30.000 h guaranteed continuous operation) with thermal cut-out. Except codes (11110- 11111 -11116-11117).
- Complies with the requirements of Part F1 of the Building Regulations even when connected on 3 m flexible aluminium duct (with 2 x 90° bends).
- Protection rating: IPX4.
- Insulation class: II

## RESIDENTIAL VENTILATION

**IPX5**

## SERIE PUNTO EVO FLEXO

Wall axial fans **LONG LIFE 30.000 h**

### PRODUCT SPECIFICATIONS

*Suitable for wall and ceiling installation; designed for stile air extraction through walls or short ducts.*

- **2 versions: Standard, Timer (T).**
- 2 nominal diameters: 100 mm and 120 mm.
- For intermittent or continuous ventilation.
- Front panel, motor holder and integrated backdraught shutter made of ABS thermoplastic shockproof and anti-UV resin.
- Helico-centrifugal mixed-flow impellers made of PP resin.
- Impellers and motor holder specifically designed for high performance, low power consumption and low noise emissions.
- Integrated butterfly backdraught shutter designed to prevent unwanted air inflows when the appliance is switched off.
- Designed to provide a low environmental impact, using recyclable materials and following the new "Design for Disassembly" technique to achieve easy and environmentally friendly disposal of components.
- Typical wall/panel, false wall, ceiling and false ceiling installations.
- The reduced mounting depth makes it ideal to fit even when the installation space is limited due to the proximity of elbow bends (90°).
- Unique anch stylish design.
- Compact size.
- Reduced depth: 61,5 mm for models Ø 100 e 71 mm for models Ø 120.
- Protection rating: IPX5 and IP45.
- Insulation class: II □ .

### PRODUCT SPECIFICATIONS

*Suitable for wall and ceiling installation; designed for stile air extraction through walls or short ducts.*

- **5 versions:** Standard, Timer (T), Advanced Timer (TP), Humidity control (HCS), Infrared motion sensor (PIR).
- 2 nominal diameters: 100 mm and 120 mm.
- 2 speeds.
- Shock-proof, UV resistant, ABS made enclosures.
- Helico-centrifugal mixed-flow impellers made of PP resin.
- Motor carriers with airfoil flow straighteners.
- Aerodynamically optimised impellers and internal geometry.
- Impellers and motor holder specifically designed for high performance, low power consumption and low noise emissions.
- Integrated butterfly backdraught shutter designed to prevent unwanted air inflows when the appliance is switched off.
- Long-life ball-bearing motors guaranteed for 30,000 hours continuous trouble-free operation.
- Designed to provide a low environmental impact, using recyclable materials and following the new "Design for Disassembly" technique to achieve easy and environmentally friendly disposal of components.
- Short mounting depth, ideal for installations close to 90° (elbow) pipe bends.
- Protection rating: IPX5 and IP45 suitable for installation in zone 1 of bathroom.
- Insulation class: II

## RANGE

Ø 100	<b>LONG LIFE</b> 30.000 h	11260 ME 100/4" LL	11264 ME 100/4" LL T	11261 ME 100/4" LL TP	11262 ME 100/4" LL TP HCS	11263 ME 100/4" LL PIR
Ø 120	<b>LONG LIFE</b> 30.000 h	11270 ME 120/5" LL	11274 ME 120/5" LL T	11271 ME 120/5" LL TP	11272 ME 120/5" LL TP HCS	11273 ME 120/5" LL PIR

The **Basic version** is equipped with a 2-speed PCB.

The **Timer version** is equipped with a PCB for time-lagged appliance switch-off. The appliance is preset for a minimum operating time of 3 minutes; it is possible to adjust the timer from approximately 3 to 20 minutes. The appliance switches on automatically straight after the light is switched on and continues to run for the set time after the light is switched off. During installation you can choose the operating speed of the appliance, min. or max. speed.

The **Timer Plus version** is equipped with a PCB that enables time-lagged switching on and/or off of the appliance at the min. or max. speed. The time lag for switching on and off, as well as the operating speed, are set during installation. In addition, the appliance can run automatic switch-on daily cycles. This function is very useful to avoid the concentration of relative humidity in environments rarely inhabited.

The **Timer PIR version** features a PCB with an infrared presence sensor able to automatically activate the appliance whenever anyone is in its range of action. In addition, thanks to the Timer, the PCB enables time-lagged switch-off, for a preset timeadjustable from 3 to 20 minutes. The switch-off time, as well as the operating speed (min. or max. speed), can be set during installation.

The **Timer Plus HCS version** features a PCB with a Timer Evoluto and a humidity sensor able to automatically activate the appliance whenever the ambient relative humidity values exceed the preset limit or when it grows rapidly. The actory preset value is 70%. The relative humidity value can in any case be set by the installer on 4 values: 60%, 70%, 80%, 90%. The PCB moreover permits time-lagged switching on and/or off at the min. or max. speed.

## PUNTO EVO ES RANGE

Wall axial fans energy savings LONG LIFE 30.000 h

### PRODUCT SPECIFICATIONS

*Suitable for wall and ceiling installation; designed for stile air extraction through walls or short ducts.*

- **2 nominal diameters:** 100 mm, 120 mm.
- Short mounting depth, ideal for installations close to 90° (elbow) pipe bends.
- ES versions equipped with brushless EC motors for even lower power consumption. Two-speed motors, with ball bearings, guaranteed for 30,000 hours of continuous operation.
- Impact-resistant ABS enclosures with anti-UV treatment.
- Aerodynamically optimised impellers and internal geometry.
- Impellers and motor holder specifically designed for high performance, low power consumption and low noise emissions.
- Safety-certified by IMQ in accordance with the applicable international standards.
- ES models allow to activate, during installation, Timer function; in detail, 3 distinct operating modes are available, depending on electrical connection:
  - continuous operating at minimum speed;
  - continuous operating at maximum speed;
  - Two speed operation: the product runs at minimum speed; by selecting maximum speed (eg. turning on the light), it switches to maximum speed and then returns to minimum speed 6 minutes after the light has been switched off.
- Integrated butterfly backdraught shutter designed to prevent unwanted air inflows when the appliance is switched off.
- Protection rating: IPX 5 and IP45 suitable for installation in zone 1 of bathroom.
- Insulation class: II □ .

Wall axial fans **LONG LIFE 30.000 h**

### PRODUCT SPECIFICATIONS

Suitable for wall and ceiling installation; designed for stile air extraction through walls or short ducts.

- **2 versions: Standard, Timer (T).**
- 1 nominal diameters: 100 mm.
- 2 speeds.
- The GOLD versions of PUNTO EVO feature a stylish metallic mirror finish in four colour nuances (Pink, Yellow, Black and White Gold) obtained through advanced technologies, providing an attractive and distinctive style, durability and wear resistance.
- Short mounting depth, ideal for installations close to 90° (elbow) pipe bends.
- Long-life ball-bearing motors guaranteed for 30,000 hours continuous trouble-free operation.
- Shock-proof, UV resistant, ABS made enclosures.
- Helico-centrifugal mixed-flow impellers made of PP resin.
- Motor carriers with airfoil flow straighteners.
- Impellers and motor holder specifically designed for high performance, low power consumption and low noise emissions.
- Designed to provide a low environmental impact, using recyclable materials and following the new "Design for Disassembly" technique to achieve easy and environmentally friendly disposal of components..
- Integrated butterfly backdraught shutter designed to prevent unwanted air inflows when the appliance is switched off.
- Protection rating: IP45.
- Insulation class: II □ .

The **Basic version** is equipped with a 2-speed PCB.

The **Timer version** is equipped with a PCB for time-lagged appliance switch-off. The appliance is preset for a minimum operating time of 3 minutes; it is possible to adjust the timer from approximately 3 to 20 minutes. The appliance switches on automatically straight after the light is switched on and continues to run for the set time after the light is switched off. During installation you can choose the operating speed of the appliance, min. or max. speed.

Wall/window axial fans LONG LIFE 30.000 h

### PRODUCT SPECIFICATIONS

*Supply to improve the quality of air we breathe daily in any domestic or commercial environment: dwellings, shops & cafes, sports centers gyms, restaurants, public houses, offices, schools, community halls and many more...*

- **10 models:** from 150 to 300 diameter, long life, Pull Cord and automatic reversible.
- The Vortice Vario models are among the best of their category in terms of performance and low energy consumption thanks to highly efficient impellers.
- Structural components in UV resistant ABS, internal components from shock resistant PS.
- Quick and easy to install.
- Extremely low noise emission.
- Vario fans are carefully designed to provide a low environmental impact, using recyclable materials and following the new "Design for Disassembly" technique to provide easy and environmentally friendly disposal of components.
- Data and performances IMQ Performance certified
- Protection rating: IPX4.
- Insulation class: II □ .

## RESIDENTIAL VENTILATION

Design: F. Trabucco - M. Vecchi

## K RANGE

In-line centrifugal fans for kitchen cabinet

### PRODUCT SPECIFICATIONS

*Suitable for ventilation of up to two bathrooms or a single utility.*

- **2 models.**
- Induction motor with thermal protection.
- Fan provides high air flow rate combined with pressures suitable for the application, when long ducts are used.
- The Axial K model also has directional flow to eliminate air turbulence.
- Two speeds (Angol K).
- Special anti-vibration gasket for silent operation.
- Protection grille on the intake port.
- Simplified internal and external maintenance and cleaning.
- Protection rating: IPX2.
- Insulation class: II □ .

### TECHNICAL DATA

Models	Code	V ~ 50 Hz	W	A	RPM	Max Airflow		Max Pressure		Lp dB(A)* 3 m	Max °C	Kg

### VORTEX® RANGE

#### Cooker hoods

#### PRODUCT SPECIFICATIONS

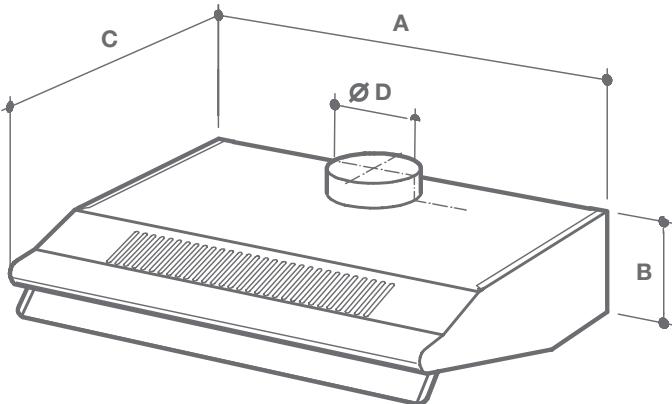

*For ventilation of kitchens, these cooker hoods blend in well with any style of kitchen décor.*

- **2 models:** 60 and 90 cm sizes. All models are supplied in extractor mode but can be converted to the recycling filtering mode using the optional kit.
- Supplied with self-illuminating, ergonomic buttons which allow selection of one of the three available speeds, according to the particular need.
- Excellent lighting with 40 W light bulbs and polycarbonate diffuser, ensures no alteration to the colour of food in the cooking area.
- Powerful yet silent, the low noise level at first speed is ideal when having to spend considerable time in the kitchen.
- Rugged construction with frame made of stainless-steel, coated in anti-scratch polyester-epoxy powder, motor-holder and fan made of self-extinguishing resin. Three-speed motor with Class B insulation and thermal cut-out for overheat protection.
- Filtering system: these models are equipped with a fabric grease filter.
- Complete with main fitting for 120 mm dia. duct and secondary fitting for 100 mm dia. duct, a cover with two discharge ports, activated-carbon filters for changing to the filtering type, air backdraught shutter, installation fixings, connection cable without plug.
- Insulation class: II □ .

Centrifugal duct fans

### PRODUCT SPECIFICATIONS

*Suitable for ventilation of medium-sized or large rooms in commercial premises plus bathrooms/showers/toilets/utilities and kitchens in domestic situations.*

- **1 model.**
- Motor with thermal cut-out incorporated in a closed-type motor-holder (protecting against dust and humidity).
- The units have a high extraction to overcome pressure loss when long ducts are used.
- The timer is adjustable from 3 to 20 min.
- Butterfly backdraught shutter to avoid air back-flow when the unit is turned off.
- Removable, washable protection grille and anti-dust filter.
- Vort Max comes with fittings for 100 and 120 mm dia. ducting.
- Data and performances IMQ Performance certified.
- Protection rating: IPX0.
- Insulation class: II □ .

## ARIETT RANGE

Centrifugal duct fans LONG LIFE 30.000 h

### PRODUCT SPECIFICATIONS

*For the ventilation of areas with intermittent use (small bathrooms, private or public toilets).*

- **2 models.**

- Motor with shielded poles and ball bearings (guaranteed for 30,000 fault-free hours of operation) and thermal overload protection.
- Double motor-fan housing, antivibration supports and backdraught shutter for silent operation.
- The timer is adjustable from 3 to 20 min.
- Pir model, checks for human motion in the room: the extractor fan is activated automatically when human movement is detected in its range.
- T-HCS model, adjustable RH threshold at 60%, 70%, 80%, 90% by mean of a slide switch during installation. The product automatically switches on when the indoor relative humidity level exceeds the pre-set value.
- 100 mm dia. outlet spigot.
- Data and performances IMQ Performance certified.
- Protection rating: IPX4.
- Insulation class: II

### PRODUCT SPECIFICATIONS

*Suitable for use in bathrooms, shower rooms and toilets.*

- **2 models:** basic and timer version.
- Two speeds.
- Motor with shielded poles and ball bearings (guaranteed for 30,000 fault-free hours of operation) and thermal overload protection.
- Double motor-fan housing, antivibration supports and backdraught shutter for silent operation.
- Unobtrusive front grille.
- Support springs for the front grille, suitable for 65 mm max false ceilings.
- Metallic filter which can be removed and washed (dishwasher safe).
- Vertical or horizontal extract points.
- All fans have the optional side or rear exit low profile connector, or high profile connector.
- Backdraught-shutter to avoid back-flow when unit is turned off.
- Timer models, the timer is adjustable from 3 to 20 min.
- The fans meet all necessary requirement of F1 building regulations.
- Data and performances IMQ Performance certified.
- Protection rating: IPX4.
- Insulation class: II

## RESIDENTIAL VENTILATION

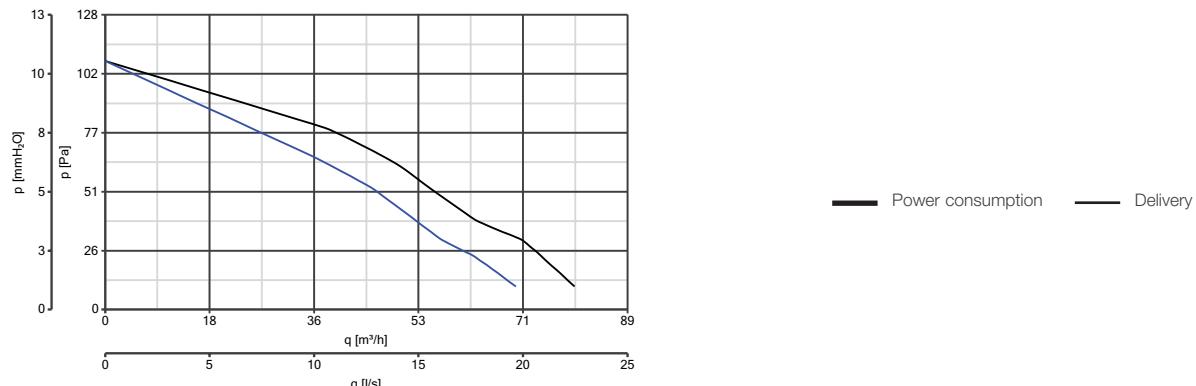

### MAIN COMPONENTS

- ① Unobtrusive front grille.
- ② Support springs for the front grille, suitable for 65 mm max false ceilings.
- ③ Metallic filter which can be removed and washed (dishwasher safe) (available on LL version models only).
- ④ Made of rigid synthetic resin to guarantee high durability.
- ⑤ 100 mm dia. Outlet spigot which can be positioned to the rear or side (using optional accessories).
- ⑥ Backdraught-shutter to avoid back-flow when unit is turned off.

### PERFORMANCE CURVES

ARIETT LL I cod. 12010 - 12011

## APPLICATIONS

## RESIDENTIAL VENTILATION

Design: F. Trabucco & Associates

## ARIETT HABITAT RANGE

Centrifugal duct fans LONG LIFE 30.000 h

### PRODUCT SPECIFICATIONS

*For continuous ventilation, with boost facility. Ideal for use in public sector housing in bathrooms, showers, utilities and toilets.*

- **2 models:** Habitat 15/30 can be used to provide trickle ventilation for rooms housing open-flued combustion appliances.
- Two speeds.
- Motor with shielded poles and ball bearings (guaranteed for 30,000 fault-free hours of operation) and thermal overload protection.
- Low power consumption.
- Fully comply with F1 Building Regulations, plus 1.9D alternative approaches.
- Antivibration support gasket, used for mounting on tiled or uneven walls.
- Backdraught-shutter to avoid back flow when unit is turned off.
- Available only for model 15/30.
- 100 mm dia. outlet spigot.
- Complete with fixings.
- Protection rating: IPX4.
- Insulation class: II

## VORT QUADRO RANGE

Centrifugal duct fans

### PRODUCT SPECIFICATIONS

For the ventilation of medium-sized or large rooms in commercial premises plus bathrooms, showers, toilets, utilities and kitchens in domestic situations.

- **13 models:** 11 with or without timer and incorporated humidistat, 2 high-efficiency EC-DC brushless motor.
- Two Speeds. All models feature two speed operation, including timer equipped models.
- Motor with thermal cut-out incorporated.
- Backdraught shutter already installed on the product to avoid air back-flow when the unit is turned off.
- Vort Quadro fans guarantee a low environmental impact. Recyclable materials have been used and the "Design for Disassembly" technique has been followed.
- The units have a high extraction to long ducts are used. Reduced sound levels with superior certified performances on ducted applications.
- The energy saving can be really significant in case of continuous operation of the fan.
- It will also permit power savings associated with the recovery of heat.
- Timer models adjustable between 3 and 20 min.
- T-HCS model, adjustable RH threshold at 60%, 70%, 80%, 90% by mean of a slide switch during installation. The product automatically switches on when the indoor relative humidity level exceeds the pre-set value.
- Filter can be removed and washed.
- Easy to install and maintain.
- Data and performances IMQ Performance certified.
- Protection rating: IPX4.
- Insulation class: II .

## VORT QUADRO I RANGE

Centrifugal duct fans for flush mounting

### PRODUCT SPECIFICATIONS

For the ventilation of medium-sized or large rooms in commercial premises plus bathrooms, showers, toilets, utilities and kitchens in domestic situations.

- **11 models:** 9 with or without timer and incorporated humidistat, 2 high-efficiency EC-DC brushless motor.
- Flush mounting.
- Two Speeds. All models feature two speed operation, including timer equipped models.
- Motor with thermal cut-out incorporated.
- Backdraught shutter already installed on the product to avoid air back-flow when the unit is turned off.
- The units have a high extraction to long ducts are used. Reduced sound levels with superior certified performances on ducted applications.
- The energy saving can be really significant in case of continuous operation of the fan.
- It will also permit power savings associated with the recovery of heat.
- Timer models adjustable between 3 and 20 min.
- T-HCS model, adjustable RH threshold at 60%, 70%, 80%, 90% by mean of a slide switch during installation. The product automatically switches on when the indoor relative humidity level exceeds the pre-set value
- Filter can be removed and washed.
- Easy to install and maintain.
- Data and performances IMQ Performance certified.
- Protection rating: IPX4.
- Insulation class: II

# VORT NOTUS RANGE

De-centralised continuous axial fans

## PRODUCT SPECIFICATIONS

*Wide range of possible installations: through wall and ceiling.*

- **2 models:** VORT NOTUS, VORT NOTUS T-HCS.
- Motor housing made of self-extinguishing (VO) polypropylene.
- Electrically controlled EC brushless motors offer optimal performance and extremely low energy consumption.
- Ball bearing motor.
- Flange, grille and front panel made of ABS.
- 3 levels of performance.
- Designed for continuous running.
- Very quiet running.
- In duct installation (Vort Notus only).
- Protection rating: IPX4.
- Insulation class: II □ .

## VORT NOTUS T-HCS:

- The R.H. sensor allows the automatic switch from minimum to maximum airflow when relatively humidity exceeds the threshold setting (levels available: 60%, 70%, 80%, 90%).
- Timer function (activated by external switch) can be overriden the humidity detection system and run the product on boost speed.
- Timer adjustable between 3 and 20 minutes.

# VORT PLATT RANGE

Centralised continuous ventilation units

### PRODUCT SPECIFICATIONS

*Suitable for horizontal and vertical installations on walls, ceilings and false ceiling.*

- **2 models:** VORT PLATT, VORT PLATT ES.
- Designed to guarantee efficient ventilation of the home in continuous operating mode.
- Long lasting galvanized steel cover.
- Rear flange made of ABS.
- Ball bearing motor.
- Two speeds.
- Inlets: 3 x 80 mm + 1 x 125 mm diameter.
- Outlet: 1 x 125 mm diameter.
- Protection rating: IPX4.
- Insulation class: II □ .

#### VORT PLATT

- AC motor external rotor with thermally protected.
- VORT PLATT supplied with 2 spigots (30 m<sup>3</sup>/h) and 1 blank.

#### VORT PLATT ES:

- Electrically controlled EC brushless motors offer optimal performance and extremely low energy consumption.
- 3 alternative settings selectable by dip switch.
- Very high efficiency: specific fan power down to 0.2 [W/l/s].
- Timer 30'.
- VORT PLATT ES supplied with 2 spigots and 1 blank.

# VORT PENTA RANGE

Centralised continuous ventilation units

## PRODUCT SPECIFICATIONS

*Designed to guarantee efficient ventilation of the home in continuous operating mode. Extraction up to 6 rooms.*

- **2 models:** VORT PENTA, VORT PENTA ES.
- ABS made.
- Ball bearing motor.
- Two speeds.
- Inlets: 5 x 80 mm + 1 x 125 mm diameter.
- Outlet: 1 x 125 mm diameter.
- New time-saving automatic kitchen flow regulation.
- Internal ducting designed to guarantee high performance, low consumption and reduced noise levels.
- Designed for installation in false ceilings, these are set up for suspended mounting by means of a cord supplied as standard.
- Alternatively, the integrated rotating bracket is available; this makes the fan very easy to install in any position, as it ensures the setup is suited to system requirements.
- Protection rating: IPX4.
- Insulation class: II □ .

### Vort Penta

- AC motor.
- Supplied with 2 spigots (30 m<sup>3</sup>) and 4 blanks.

### Vort Penta ES

- Electrically controlled EC brushless motors offer optimal performance and extremely low energy consumption.
- 5 alternative settings selectable by dip switch.
- Very high efficiency: specific fan power down to 0.2 [W/l/s].
- Timer 30'.
- Supplied with 3 spigots and 3 blanks.

## VORT LETO MEV RANGE

Centralised continuous ventilation units

### PRODUCT SPECIFICATIONS

*Designed for continuous operation in domestic or commercial environments. Extraction up to 500 m<sup>3</sup>/h.*

- **2 models:** VORT LETO MEV, VORT LETO MEV RF equipped with RF remote controller.
- ABS made.
- Electrically controlled EC brushless motors offer optimal performance and extremely low energy consumption.
- Ball bearing motor.
- Two speeds.
- Very high efficiency: specific fan power down to 0.2 [W/l/s].
- Inlets: 4x125 mm diameter.
- Outlet: 1x125 mm diameter.
- Supplied with 2 blanks.
- Precise speed setting with potentiometers in order to achieve maximum energy saving.
- Easy vertical or horizontal wall or ceiling installation.
- Protection rating: IPX4.
- Insulation class: II □ .

### VORT MEV RF

- RF remote controller, powered by long lasting solar cells, allows speed selection and timer activation. Timer.

### PRODUCT SPECIFICATIONS

Progettati per assicurare il mantenimento delle condizioni di comfort ideali nel locale asservito, minimizzando al contempo i consumi energetici.

- **3 models:** VORT HRW 20 MONO with operating controls built into the appliance, VORT HRW 20 MONO RC with separate Remote Control unit and VORT HRW 20 MONO HCS with operating controls built into the appliance and humidity sensor.
- Expanded polypropylene (PPE) enclosure.
- Inner panel made of V0 self-extinguishing aesthetic plastic polymer (ABS), clad with heat-insulating material.
- EC brushless motor affording high performance and extremely low power consumption; mounting bracket with ball bearings. Very low consumptions ( $\leq 2$  W when running at Min speed,  $\leq 5$  W when at Max speed), compatible with continuous operation.
- High values of heat transfer efficiency (90% at minimum flow rate according to EN 308), to grant the comfort of users.
- Moulded rubber outer grille, which can be mounted externally with masonry plugs, or inserted internally through the hole prepared in the wall with no need for external scaffolding.
- Elegant aesthetics, perfectly fitting in the residential.
- Small indoor dimensions (240 x 224 x 95 mm version equipped with on-board commands and with humidity sensor, 240 x 224 x 64 mm version controlled through wired control box).
- 5 selectable speeds.
- 3 operating modes for both versions: ventilation with heat recovery; with stale air extraction only; with fresh air supply only.
- Low noise levels (16 dB(A) at Min speed according to DIN 52210-6), compatible with use in studies, bedrooms, living rooms, etc.
- Separate insect mesh, positionable in the duct together with the external grille at the moment of installation.
- Stale internal air extracted around the perimeter of the front panel.
- Outlet port of circular section, nominal diameter 160 mm.
- Washable G3 filter, easily accessible for maintenance purposes.
- HCS models are equipped with a relative humidity sensor (four threshold values: 60%, 70%, 80%, 90%, can be set at installation), which automatically start the extraction mode at max speed when indoor relative humidity exceeds the pre-set limit.
- Factory-prepared for wall wiring
- Diagnostics and filter status Leds.
- Easy to install, set and use..
- No need to install systems for removal of condensate.
- Possibility of operation in automatic mode, enabled by installing optional temperature and relative humidity sensors.
- Protection rating: IPX4.
- Insulation class: II

APPLICATIONS

## RESIDENTIAL VENTILATION

Design: F. Trabucco - M. Vecchi

**NEW**

## VORT PRESS EP RANGE

Centrifugal duct fans

**LONG LIFE** 30,000 h

### PRODUCT SPECIFICATIONS

*For the ventilation of medium-sized rooms in commercial applications plus bathrooms, showers, toilets, utilities in domestic situations.*

- **2 models**, with or without timer.
- Double motor-fan housing, antivibration supports and backdraught shutter for silent operation.
- Three speeds.
- Motor with ball bearings (guaranteed 30,000 hours of continuous operation) with thermal cut-out.
- Metallic filter which can be removed and washed (dishwasher safe).
- 100 mm dia. outlet spigot.
- Backdraught-shutter to avoid back flow when unit is turned off.
- "Intelligent" timer turns the unit on for approximately 40 sec. after the activation. When switched off, the unit continues to operate at the minimum speed for between 30 sec. and 30 min. (depending on the setting).
- Data and performances IMQ Performance certified.
- Protection rating: IPX4.
- Insulation class: II □ .

### Spare Parts

- Metallic anti-dust filter.

#### PRODUCT SPECIFICATIONS

*For the ventilation of medium-sized or large rooms in commercial applications plus bathrooms, showers, toilets, utilities and kitchens in domestic situations.*

- **6 models**, with or without timer.
- Double motor-fan housing, antivibration supports and backdraught shutter for silent operation.
- Three speeds.
- Motor with ball bearings (guaranteed 30,000 hours of continuous operation) with thermal cut-out.
- Unobtrusive front grille.
- Support springs for the front grille, suitable for 65 mm max false ceilings.
- Metallic filter which can be removed and washed (dishwasher safe).
- “Intelligent” timer turns the unit on approximately 40 sec. after the activation. When switched off, the unit continues to operate at the minimum speed for between 30 sec. and 30 min. (depending on the setting).
- 100 mm dia. outlet spigot, all fans have the optional side or rear exit low profile connector, or high profile connector.
- Timer models, the timer is adjustable from 3 to 20 min.
- Data and performances IMQ Performance certified.
- Protection rating: IPX4.
- Insulation class: II □ .

#### Spare Parts

- Metallic anti-dust filter.

## VORT QUADRO EP AC RANGE

Centrifugal duct fans

### PRODUCT SPECIFICATIONS

*For the ventilation of medium-sized or large rooms in commercial premises plus bathrooms, showers, toilets, utilities and kitchens in domestic situations.*

- **6 models:** 4 with or without timer and incorporated humidistat, 2 high-efficiency EC-DC brushless motor.
- Two Speeds. All models feature two speed operation, including timer equipped models.
- Motor with thermal cut-out incorporated.
- Backdraught shutter already installed on the product to avoid air back-flow when the unit is turned off.
- Vort Quadro fans guarantee a low environmental impact. Recyclable materials have been used and the "Design for Disassembly" technique has been followed.
- The units have a high extraction to long ducts are used. Reduced sound levels with superior certified performances on ducted applications.
- The energy saving can be really significant in case of continuous operation of the fan.
- It will also permit power savings associated with the recovery of heat.
- Timer models adjustable between 3 and 20 min.
- T-HCS model, adjustable RH threshold at 60%, 70%, 80%, 90% by mean of a slide switch during installation. The product automatically switches on when the indoor relative humidity level exceeds the pre-set value.
- Filter can be removed and washed.
- Easy to install and maintain.
- Data and performances IMQ Performance certified.
- Protection rating: IPX4.
- Insulation class: II

# VORT PLATT EP RANGE

Centralised continuous ventilation units

### PRODUCT SPECIFICATIONS

*Suitable for horizontal and vertical installations on walls, ceilings and false ceiling.*

- **2 models:** VORT PLATT, VORT PLATT ES.
- Designed to guarantee efficient ventilation of the home in continuous operating mode.
- Long lasting galvanized steel cover.
- Rear flange made of ABS.
- Ball bearing motor.
- Two speeds.
- Inlets: 3 x 80 mm + 1 x 125 mm diameter.
- Outlet: 1 x 125 mm diameter.
- Protection rating: IPX4.
- Insulation class: II □ .

#### VORT PLATT

- AC motor external rotor with thermally protected.
- VORT PLATT supplied with 2 spigots (30 m<sup>3</sup>/h) and 1 blank.

#### VORT PLATT ES:

- Electrically controlled EC brushless motors offer optimal performance and extremely low energy consumption.
- 3 alternative settings selectable by dip switch.
- Very high efficiency: specific fan power down to 0.2 [W/l/s].
- Timer 30'.
- VORT PLATT ES supplied with 2 spigots and 1 blank.

## VORT PENTA EP RANGE

Centralised continuous ventilation units

### PRODUCT SPECIFICATIONS

*Designed to guarantee efficient ventilation of the home in continuous operating mode. Extraction up to 6 rooms.*

- **2 models:** VORT PENTA, VORT PENTA ES.
- ABS made.
- Ball bearing motor.
- Two speeds.
- Inlets: 5 x 80 mm + 1 x 125 mm diameter.
- Outlet: 1 x 125 mm diameter.
- New time-saving automatic kitchen flow regulation.
- Internal ducting designed to guarantee high performance, low consumption and reduced noise levels.
- Designed for installation in false ceilings, these are set up for suspended mounting by means of a cord supplied as standard.
- Alternatively, the integrated rotating bracket is available; this makes the fan very easy to install in any position, as it ensures the setup is suited to system requirements.
- Protection rating: IPX4.
- Insulation class: II □ .

#### Vort Penta EP

- AC motor.
- Supplied with 2 spigots (30 m<sup>3</sup>) and 4 blanks.

#### Vort Penta ES EP

- Electrically controlled EC brushless motors offer optimal performance and extremely low energy consumption.
- 5 alternative settings selectable by dip switch.
- Very high efficiency: specific fan power down to 0.2 [W/l/s].
- Timer 30'.
- Supplied with 3 spigots and 3 blanks.

	<p>Remote Control Unit (only for cod. 11635) Wired control box integrating the power supply (no external device needed), allowing switching on/off and selection of operating mode. Up to 4 products can be wired simultaneously to 1 controller.</p>	22693										

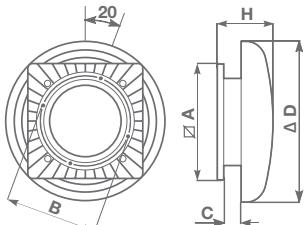

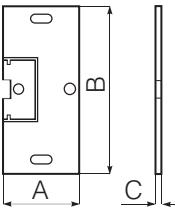

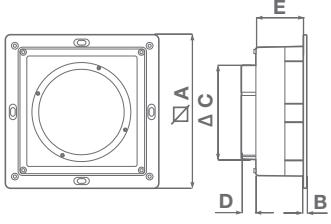

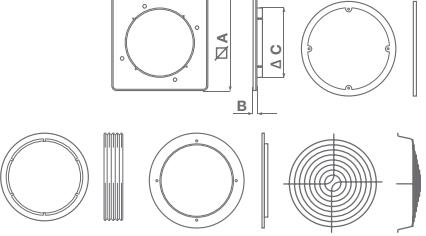

Sensor units		
Sensor units are appliances which detect certain environmental conditions (humidity, temperature, human motion, odour and smoke concentration) and automatically activate the extractor fans. They may also be connected to Vortice control units, enhancing their functions.		
<ul style="list-style-type: none"> <li>- Supply voltage 220-240 V</li> <li>- Frequency: 50/60 Hz</li> <li>- Max load 3A</li> <li>- Operating temperature: 50°C</li> <li>- Protection rating IP20</li> </ul>		
Models	Description	Code
	<p><b>C HCS</b> Checks the relative humidity of the air: the extractor fan is activated automatically when the relative humidity percentage exceeds 65%. Otherwise, the appliance starts automatically a few seconds after the light is switched on and continues to run for a set time after it has been switched off again; this time period can be adjusted to a value between 3 and 20 minutes using a built-in trimmer.</p>	12994
	<p><b>C TEMP</b> Checks the temperature of the surrounding air: the extractor fan is activated automatically when a certain temperature is recorded; this can be adjusted, using an external trimmer, to a value between 10 °C and 40 °C above the set threshold. A timer keeps it running after the temperature has fallen below the set threshold, for a period of time which can be adjusted to a value between 3 and 20 minutes using a built-in trimmer.</p>	12992
	<p><b>C SMOKE</b> Checks the quality of the air when the air contains cigarette smoke, odours and other pollutants: the extractor fan is activated automatically when a concentration of odours higher than the set value is detected; this value can be adjusted using an external trimmer. A pre-set timer, which can be adjusted to a value between 3 and 20 minutes using a built-in trimmer, keeps the extractor fan running for the desired period of time.</p>	12993
	<p><b>C PIR</b> Checks for human motion in the room: the extractor fan is activated automatically for a specified time period, which can be adjusted between 3 and 20 minutes using a trimmer, when human movement is detected in its range.</p>	12998
	<p><b>C TIMER</b> Checks the operating time of the appliance to which it is connected: the extractor fan is activated automatically a few seconds after the light is switched on and continues to run for a set time, which can be adjusted to a value between 3 and 20 minutes using a built-in trimmer, after it has been switched off again.</p>	12999
