

## QE - CFR

### **Cornice di tamponamento** (fig. 1÷2)

Consente di nascondere le imperfezioni dovute ad un'installazione non correttamente rifinita in un intonaco o su piastrelle o in aperture per l'incasso troppo ampie, che il QE non riuscirebbe a coprire completamente. La cornice è montata tra la parete e la parte anteriore del QE.

### **Infill frame** (fig. 1÷2)

Hides imperfections due to an incorrectly finished installation on a plaster or on tiles or in openings or recesses that are too large that the QE would not be able to cover completely. The frame is mounted between the wall and the front part of the QE.
